

How do I know that Serenity Legal Services is the right firm to handle my bankruptcy?

Most non-lawyers venture into the legal system very few times in their lives -- perhaps for a traffic ticket, a divorce, or a bankruptcy. Lay people often have very little knowledge of what lawyers really do, and of how to tell if a lawyer knows what he or she is doing. Picking a lawyer is as hard as picking a doctor -- maybe more-so, since people have a fair amount of experience in seeing doctors.

At Serenity Legal Services, we believe we're the right lawyers for you. First, we have handled literally thousands of bankruptcy cases. Our attorneys have been working in the field as far back as 1985. We've helped countless people put their debt behind them, while also keeping the property they need to make a fresh start.

Second, we stay up to date on the law. We not only review new court decisions as they are published to keep track of emerging trends, but we also lead discussions and seminars on a regular basis for other lawyers -- which keeps us on our toes.

Finally, we CARE. The lawyers of Serenity Legal Services know that the loss of someone's financial stability is a truly jarring experience, and that deciding to file bankruptcy involves much personal pain and fear of embarrassment. Some of our lawyers have even filed bankruptcy themselves! When you work with a Serenity Legal Services lawyer, you're working not only with a leader in the field professionally, but also a human being who will show you the compassion and comfort you need to get through your trying time.
